

Ref.2049 **OYSSA**

Lightweight and compact portable emergency hoist for rescues at height. A pre-rigged 6-to-1 allows an injured person to be unweighted from their fall position and lifted for connection to the rescuer for descent to the ground. Reduction ratio: 6; Maximum recovery height: 1 m; Working load limit: 120 kg; Breaking load: 7 kN. WARNING: This is not PPE and must not be relied on as the victim's only point of attachment. It must always be used in combination with complete fall arrest systems.

SELF RESCUE ROPE ACCESS

Bag can be attached to any harness
